

**Dear Customer,**

In these times of danger and uncertainty in the wider world, here at FB Kedjor we are working for a safe, secure and predictable working day.

We take care of our employees and our customers' employees. We also want to ensure that your business remains safe and profitable, and is not disrupted by coronavirus or any other unforeseen obstacles to production.

We would therefore like to visit your company to help you with inspections, application solutions, servicing, assembly and any other services you may need, on site.

We are also happy to meet you, but to prevent uncertainty and the spread of viruses, we prefer to meet by phone, online video or some other digital solution.

Our operation remains fully up and running, and our subcontractors and business partners are all helping to ensure that we are as well equipped as possible to help you now and moving forward, in these uncertain times. We have chains, sprockets, wear rails, bark shredders and spare parts in stock and can deliver promptly.

Please contact us as soon as possible to guarantee the continued smooth running of your operation! You can find your contact person [here](#).

Wishing you good health and a good collaboration,  
The FB Kedjor team via / Patrick Schönfeldt
